Coalition Against U.S. Foreign Military Bases, USA**

**OBJECTIVES**

1. It is within the OSCE and a reformed United Nations, and not the EU, that Ireland should pursue its security concerns.
2. Ireland should pursue a positive neutrality and independent foreign policy and not join or form an association with any military alliance, such as NATO.
3. Ireland should seek to promote European and international security through a policy of disarmament and should therefore oppose the militarisation of the EU.
4. Ireland should refuse to cooperate with or condone in any way policies or military groupings which maintain nuclear weapons or any weapons of mass destruction.
5. Irish troops should only serve abroad as peacekeepers under the auspices of the UN.

**First International  
Conference Against  
US/NATO Military Bases**

**November 16-18, 2018**

**Liberty Hall, Dublin, Ireland**

The increasingly aggressive actions of US/NATO forces, the raging wars in the Middle East, the burgeoning arms race devastating the national treasuries, the bellicose language replacing diplomatic negotiations, the economic crises facing country after country, the destruction of the global environment through war and unfettered exploitation, their impact on public health, have created crises that, unless checked by popular opposition, can lead to unimaginable catastrophe and war.

None of us can stop this madness alone. Global peace forces must come together, mobilizing the millions in our countries, and around the world, for peace. Based on this understanding, we have initiated the Global Campaign Against US/NATO Military Bases.
